We understand your desire to include everyone, and we wish we could accommodate those teams which are unable to attend on the originally scheduled date. However, there has been too much work done to promote the event for the originally scheduled date. Also, Wiggly Field has already been reserved for May 30, and there is a steep penalty to be paid for changing the date.

Questions 160-163 refer to the following article.

#### Magi-Tech Creates Solar Power Tents

Magi-Tech announced yesterday that they have a prototype tent using solar power. The company said it will be run 100% on solar power and when there is no light, will be run by two 9v batteries. People that love the outdoors will find this extremely useful.

This may seem extremely odd. How on earth is something like this going to help? Well, here are the features. You just put up a tent as you normally would. After it is set, when you look inside the tent, there should be 3 little holes inside the tent. In the instruction manual, it shows what goes in the holes, such as the fan goes into hole 1. After all the items are attached inside of the tent, simply plug the solar power device to the small hole outside of the tent.

Magi-Tech has been looking for ways to put solar power to good use, and it looks like this is their first, after 2 years of development. Imagine camping outside and just simply plugging in a solar power device and you get fans, a light, and two electric outlets to work.

"Some people may think this is completely useless, but we at Magi-Tech believe it is going to be a very useful product," says Mark Henry, vice president of technology. "Now we just need to show people how this thing works, and after the word is out, we will put it on the market. In the long run, you will save money also since it is ran by the sun itself."

The solar power device is simpler than you think, it weighs less than 4 pounds and 3 fans, 3 lights, and 2 electric outlets come with the purchase of the solar power tent. It is also as powerful as two 9v batteries. We are expected to see around 5 million units just in the US by 2008.

160. According to the article, what is true about solar power batteries?

- ☐ A It is less powerful than a 9v battery.
- ☐ B It is a better environmental use than batteries.
- ☒ C It is lighter than 4 pounds.
- ☐ D It is useless.

161. What benefits can you get from the solar power battery?

- ☒ A You can save money in the long run.
- ☐ B It costs less than the 9v battery.
- ☐ C It has a wider range of usage.
- ☐ D It is lighter than the 9v battery.

162. What does the vice president think the people will feel about this product?

- ☒ A He thinks a lot of people will find it useless.
- ☐ B He believes he is going to sell 50 million units.
- ☐ C He thinks the people will love it.
- ☐ D He thinks the people will think it's a very useful product.

163. What is predicted for the future of this product?

- ☐ A They will have 50 million units worldwide by 2008.
- ☒ B They will have 5 million units in the US by 2008.
- ☐ C This will replace the 9v battery.
- ☐ D Everyone will toss their old tent out.

TO : "Roger Bond" <roger@summit.com>  
President, Summit Group, Inc.  
FROM : "John Hatfield" <john @ summit.com>  
DATE : October 24  
SUBJECT : Request for a week vacation

Greetings!

I have been working in this company for over 10 years, it's been my great privilege to serve our clients with willingness and happiness. During those years, I haven't issued any application for absence. As you know, I was assigned to the Administration Department just three months ago and I am still trying to adjust to a totally different work environment. It is very challenging to be assigned because I have got to experience a kind of transaction which is quite different from my previous assignment in the Public Relations Division.

May I ask permission to change the filing of personnel documents so that transactions in the office can run smoothly? Effective October 1, I was appointed to the head of the Administration Department, so my extension number is 3-0753, instead of 5-0258 on the list.

Actually, for the past few months, I've received phone calls from customers complaining about the products and asking for refunds. These calls keep on coming to my new office without asking who is the person concerned or what department is in charge of that problem. I've realized that office file # 132-4 on the list of extension numbers was not updated as of October 20. This situation created confusion for me and for customers. Therefore, obviously my routine work was disturbed due largely to those calls, which are supposed to be handled by the Public Relations Department.

Customers' calls consumed most of my time because I have to deal with them even though they may be angry, disgusted, or complaining. Since I'm not anymore assigned in the Public Relations Division, I should give them the concerned person to whom they should direct their complaints. Because of the terrible stress I've experienced, I want to take a vacation leave for five days starting next Monday. I am hoping that you approve my application form, so I can refresh my mind and body.

Please respond as soon as possible. Thank you very much.

Ronald Summers  
Store Proprietor  
Atlantic Travel Store  
Jomit, Wyoming

Dear Mr. Summers:

I have been very pleased with the kind of service that your store has shown to me in the past. I can only speak of Atlantic as highly competitive travel shop compared with the other travel shops as far as the quality of service and products is concerned.

In the evening on July 7, I bought a travel bag with a displayed tag price of \$120.00, including VAT. I was in a hurry to buy it because you were about to close. Also, when I was at the counter, I noticed that the cashier looked confused and uncertain of what she was doing because she even asked for some assistance from the other cashier. I had no time to check my receipt that night. I only checked it the following day. I found out my card receipt showed an overcharge of \$ 10 9, which might be the VAT on the item bought. I thought I should go there personally to discuss this matter but I had to catch my flight to Korea early in the morning on that day also. I would therefore ask for the necessary adjustments on my account to which the additional charge was imposed. Right now, I'm in Seoul. I hope you can take some actions before my return on July 15.

I hope you respond promptly to this letter. If you do so, kindly send it to my home address indicated above. Thank you in advance.

Yours truly,

ClaricePark

Over the years, he shared his collections in exhibits at the Lincoln Memorial Center.

November 19, 2006

Dear Lincoln Memorial Center Staff,

I've heard that you are hosting Mr. Berryman's "Christmas in England, Germany and Scandinavia" in your Lincoln Memorial Center. So I, Abigail Tomson, was wondering if you could host our exhibit we named "Miss You Santa." The traditional Christmas holiday is the theme of the exhibit, which was to be hosted in the Turner-Dodge House & Heritage Center but could not be anymore, due to some conflicts that arose in the process of agreeing upon the costs for having it at their Center.

We will be sharing our collection of early mid-20th century with die-cut cardboard Christmas signs, store counter and window displays, including life-size cutouts of Santa Claus. "Miss You Santa" will show you exactly how the holiday seasons used to be in 1940s to 1950s in U.S. and it will especially remind our grandmothers and grandfathers with their old holiday season memories. We would like to host it from Wed. through Sat., from 2 p.m. - 5 p.m. so that there will not be any conflicts with Mr. Berryman's exhibit. Please let us know your decision soon. Thank you.

Questions 147-149 refer to the following announcement.

We suggest that you help in the following ways:

Questions 150-152 refer to the following letter.

The functioning of our society is based largely on reliable, convenient and fast — of exchanging messages. This means that automation in companies must systemize not only data processing, but also data communication. One important step towards office automation was the introduction of electronic mail. This has been in use for a long time, largely in and between universities, but also as an internal means of communication within large companies. —, several companies offer this service to their subscribers, in the form of electronic mail-boxes. In the early 80's, it became clear that a significant use of electronic mail could only be possible with international standardization. In particular, general communication between companies is only possible if standardized protocols define the communication between computers from different manufacturers over a — of transmission media.

## Part 7: đoạn đơn

Questions 153-155 refer to the following letter.

Dear 25-Year Club Members,

The massive changes taking place within Anderson Industries may be somewhat unsettling for our longer-term employees. Yet, as we pause to recognize our 25-Year Club members, it is appropriate that we also acknowledge the need to adapt and grow. For this, we need the knowledge and experience of you and of all our employees to guide us successfully through this journey.

Most of you will realize that the manufacturing processes that we utilize and the methods that we use to guide our business have changed very little over the years. In today's constantly changing world, it is the innovative companies with continuous improvement of flexible manufacturing systems and modern business practices that capture the attention of their customers. This is the kind of company that we are striving to become.

You are aware that we have been working over the past several months with a team of experts to discuss innovations in our manufacturing processes and business practices.

I want to ensure that you are also aware that we have built into this discussion process numerous opportunities to consult with our 25-Year Club members. No one knows better than we do that the perspective gained from experience is an essential part of any innovation process.

Anderson Industries has a solid reputation in the automotive industry, thanks to the efforts of you, the 25-Year Club members. Now it is time for all of us to create the necessary changes in our company to ensure that our 25-Year Club will grow in membership for years to come.

Thank you all for your loyalty and commitment to the success of Anderson Industries.

Sincerely,

Karl Anderson

You can find this information provided in the employee handbook and the orientation each of you has received. ## Part 7: đoạn đôi

Meeting Manager is an online course which helps the participants, mostly business men and women, to systematically learn the skills they will need as they travel on business trips to the Western countries. The course provides the employees with both good and poor examples of meetings, obviously showing how to avoid the problems that often occur when people from Korean cultures and people from Western countries come together for a meeting.

It is perfect for non-native speakers whose English levels are above normal. The course also provides a complete script, teacher's manual, and questions to study with.

It is a series of five courses and each is approximately half an hour long. Therefore you can watch it as you are taking a break during your work or even after lunch as you are having a cup of coffee. It is very popular in Japan and the employees there have seen the great effectiveness of the Meeting Manager. We believe that it will still do the same in Korea for Korean employees who have frustrations and fears having meetings with western employees.

It is \$ 400 plus tax. For ordering or more information, please call 1 -800-MEE-TING.

Hello

My name is Joohee Kim and I just wanted to let you know how grateful I am for the improvement I made after I had learned so many good tips and know-how from your course. I used to be unable to talk at all during meetings with western businessmen but now I speak, discuss, debate, and even share life with them! How amazing! These days, my co-workers always tell my boss to send me for all the business trips, because they are not so confident with meetings with western businessmen just like I used to be. So I would like to help them. But even before I help them, I want to help my sister's son who is going on his first business trip to Chicago next Monday. So I would like to order one course of Meeting Manager. How long would it take for us to receive it? I would be pleased if you'd respond as soon as possible. Thank you.

Dear Northwestern University Principal,

Hello, I am student at Northwestern University and I wanted to ask you a question. The question is how come most of my family who have gone to N.U. and have also donated thousands of dollars of money still have to pay for the fitness room fee, which is so small compared to the donation that our family gave to the school? My dad came back exasperated last night, because he had to pay about \$400 dollars to go to the gym for 18 months. He said that he could just come back but, because he loves and has pride in N.U. that he could not and that he just paid the money as if he's donating to the school. I think the alumni should be treated differently, especially the ones who have sacrificed themselves for the enhancement and betterment of the school. They should be able to use any of the school facilities for free and come and use it as if it is their home. In fact, isn't it their home? I hope what I've said here isn't rude but a good suggestion. And I recommend you talk to my dad the next time. Thank you for your attention.

Jaime

189. What does Jaime say about his dad?

- ☐ A His dad came back exasperated because of all the money he donated.
- ☐ B His dad came back home excited for not being able to exercise in N.U.
- ☐ C His dad was rejected getting membership at the fitness room.
- ☒ D His dad loves N.U. and has donated lots of money.

190. What does Jaime say about how the school should treat the alumni?

- ☐ A The school must keep asking the alumni to donate money to the school.
- ☐ B The school must offer them free food in the cafeteria.
- ☒ C The school must treat all the alumni with respect and generosity.
- ☐ D The school must disregard the alumni who never donated money to the school.
